A

**CERTIFICATION OF OHIO POLICE & FIRE PENSION FUND
PURSUANT TO FEDERAL SECURITIES LAW**

Ohio Police & Fire Pension Fund ("OP&F") declares as follows:

1. OP&F has reviewed a complaint against American International Group, Inc. ("AIG") in this case and has authorized its filing.
2. OP&F did not purchase the securities of AIG that are the subject of the action at the direction of its counsel or in order to participate in any private action arising under the federal securities laws.
3. OP&F is willing to serve as a representative party on behalf of the class, including providing testimony at deposition and trial, if necessary.
4. During the proposed class period, OP&F made the transactions set forth in the attached Schedule in the AIG securities that are the subject of this action.
5. OP&F has not sought to serve as a representative party on behalf of a class under the federal securities laws during the three years prior to the date of this Certification.
6. OP&F will not accept any payment for serving as a representation party on behalf of the class beyond its pro rata share of any recovery, except for reimbursement of its reasonable costs and expenses (including lost wages and travel expenses) directly relating to the representation of the class as ordered or approved by the Court.

14th I declare under penalty of perjury that the foregoing is true and correct. Executed this day of December 2004.

Offset or (Loss) is calculated as follows:

For Pre-Class Period purchases which are sold during Class Period, Offset equals (sales price - PSLRA "Lookback Period" average price) x number of shares sold

For Class Period purchases which are sold during the Class Period, Offset (Loss) equals (sales price - purchase price) x number of shares sold

For Class Period purchases which are sold after the Class Period, Offset (Loss) equals (sales price - purchase price) x number of shares sold

For Class Period purchases which are held at the end of the "Lookback Period", Offset (Loss) equals (PSLRA "Lookback Period" average closing price - purchase price) x number of shares held
